Random Tom Fonts: End User License Agreement (EULA)

Licensor: Tomasz Przybysz, a natural person and the author of the Font Software, trading under the brand **Random Tom**, Grodzisk Mazowiecki, Poland
Contact: randomtom.fonts@gmail.com
EULA version: 1.0 · Effective date: 6 November 2026
Current version online: https://random-tom.com/eula/

By downloading, installing or using the Font Software you accept this Agreement. If you do not accept it, do not download, install or use the Font Software.

1. Definitions

- **"Font Software"** means the font files of any typeface published by the Licensor under the Random Tom brand (for example Kruszec Sans) for which you purchased a license, in any format supplied by the Licensor (OTF, TTF, WOFF, WOFF2, variable fonts and any later formats or versions), together with the accompanying documentation.
- **"Licensee" / "You"** means the natural person or legal entity that purchased a license, as identified on the order or invoice. If you buy on behalf of an organisation, the organisation is the Licensee.
- **"Workstation"** means one computer, tablet or other device on which the Font Software is installed.
- **"Artwork"** means any static or moving image, document, product or design that you create using the Font Software, in which the Font Software itself is not distributed in usable form.
- **"Pageviews"** means the total number of times web pages that use the Font Software via `@font-face` are loaded per month, across all domains covered by the license.

2. Grant of license

Once full payment is received, the Licensor grants you a **non-exclusive, non-transferable, worldwide, perpetual** license to use the Font Software within the limits of the purchased tier(s). Tiers can be combined.

TIER	YOU MAY
Desktop	Install the Font Software on up to **5 Workstations** owned or controlled by the Licensee and use it to create Artwork: print, logos, branding, packaging, signage, social media, video, motion graphics and static images. There is no limit on the number of copies or impressions of the resulting Artwork.

TIER	YOU MAY
Web	Embed the WOFF/WOFF2 files using `@font-face` on websites owned or controlled by the Licensee, for up to **10,000 Pageviews per month**. Larger tiers can be bought at any time. The font files must be served from the Licensee's own servers or a private CDN and must not be directly downloadable or linkable by third parties beyond normal browser use.
App / eBook	Embed the Font Software in **one** mobile, desktop or web application, game, or **one** e-book or e-publication title (all editions and platforms of that title), in a form that cannot be extracted (subset or obfuscated where technically possible).
Commercial Extended	Everything in Desktop, plus: (a) **products for resale in which the text is the main value**, such as templates, print-on-demand merchandise, greeting cards, stickers and pre-made logos for sale; (b) use on **unlimited Workstations within one company and its subsidiaries**; (c) broadcast and streaming productions with an unlimited audience.

3. What you may do

1. **Commercial use** of Artwork, within your tier.
2. **Logos and trademarks.** You may use the Font Software in a logo or trademark and register that logo. You own your logo. You do not own the Font Software, and you may not register the letterforms of the Font Software on their own.
3. **Outlined text.** You may convert text set in the Font Software into vector outlines in your Artwork and modify those outlines for that Artwork, for example to adjust a logo.
4. **PDF documents.** You may embed the Font Software in PDF files (subset, for viewing and printing) that you distribute, provided the files do not allow the Font Software to be extracted.
5. **Service providers.** You may give a copy of the Font Software temporarily to a printer, agency or contractor working on your project, provided they use it only for that project, delete it afterwards, and comply with this Agreement. You are responsible for their compliance.
6. **Backup.** You may make backup copies for archival purposes only.

4. What you may not do

1. Share, sell, rent, lend, sublicense, give away or otherwise distribute the Font Software or any part of it, in original or modified form, except as allowed in sections 2 and 3.
2. Upload the font files to publicly accessible servers, file-sharing services, template marketplaces or font-sharing websites, or include them in templates, themes or design kits that you distribute.
3. Modify, adapt, translate, convert to another format, decompile or reverse-engineer the Font Software, or extract its outlines to create another font or derivative font software. Exception: conversion strictly necessary for your own licensed Web or App use (for example WOFF2 subsetting).

4. Use the Font Software, or Artwork whose main purpose is to show the letterforms, to **train, fine-tune or evaluate machine learning or artificial intelligence models**, or include it in datasets for that purpose.
5. Use the Font Software in products, apps or services that let end users enter their own text and generate output with the Font Software (for example custom-name generators or personalisation tools), unless you have the Commercial Extended tier **and** the App / eBook tier.
6. Remove or alter the copyright notices, embedded name data or licensing information in the font files.
7. Use the Font Software beyond the number of Workstations, Pageviews, apps or titles you have licensed.

5. Ownership

The Font Software is a work protected by copyright and international treaties. All rights, title and interest in the Font Software remain with the Licensor. You buy a license to use it, not the Font Software itself. Rights not expressly granted in this Agreement are reserved.

6. Upgrades and transfer

You may need to buy additional or higher tiers if your use grows (more Workstations or Pageviews, a new app or title). You may not transfer this license to another person. The one exception is the transfer of a whole business or project to its new owner: the license may be transferred together with all copies of the Font Software, provided the new owner accepts this Agreement in writing (e-mail is sufficient) and the Licensor is notified.

7. Consumers in the European Union

If you are a consumer, nothing in this Agreement limits your statutory rights.
Right of withdrawal: the Font Software is digital content not supplied on a tangible medium. By starting the download, you expressly agree to immediate supply and acknowledge that you thereby **lose the 14-day right of withdrawal** (Article 16(m) of Directive 2011/83/EU; in Poland, art. 38 ust. 1 pkt 13 of the Consumer Rights Act). If the Font Software is defective or does not match its description, contact the Licensor and the Licensor will provide a corrected version or a refund.

8. Warranty

The Licensor warrants that the Font Software is an original work by the Licensor and will function substantially as described for 90 days from purchase. Otherwise, to the extent permitted by law, the Font Software is provided “as is”, without other warranties.

9. Limitation of liability

To the extent permitted by law, the Licensor’s total liability under this Agreement is limited to the amount you paid for the license. The Licensor is not liable for indirect or consequential damages, including lost profits or data. These limitations do not apply to liability that cannot be limited by law, such as liability for damage caused intentionally.

10. Termination

This license terminates automatically if you breach it. On termination you must stop using the Font Software and delete all copies. Artwork lawfully created and distributed before termination may continue to be used.

11. Governing law and disputes

This Agreement is governed by the law of the Republic of Poland. Disputes will be settled by the common court competent for the Licensor's place of residence. If you are a consumer, you also keep the protection of the mandatory law of your country of residence and may bring proceedings in the courts of that country.

12. Miscellaneous

If any provision is found invalid, the remaining provisions stay in force. This Agreement is the entire agreement on licensing the Font Software. If it conflicts with the terms of a marketplace through which you bought the Font Software, the marketplace license applies to that purchase. This Agreement is available in English and Polish; both versions have equal force, and for consumers resident in Poland the Polish version prevails in case of discrepancy.
